CIVIL & ENVIRONMENTAL
ENGINEERING
4-YEAR COURSE
"SCHEDULING AID"
Last Viewed
10/10/2017

Revised: 10/10/2017

This Four-Year Course Scheduling Aid is provided for your convenience in planning your program of study in Civil & Environmental Engineering. The department will make every effort to teach each class as scheduled. However, on occasion, it may be necessary to drop a class from the schedule due to a lack in enrollment or of suitable faculty to teach the course. It is very unlikely that any 100-400 level courses will be affected; 500-600 level courses are more susceptible. Therefore, as you plan your program, your strategy should include options that will allow you to complete your studies in a timely manner even if one or two of your preferred courses should be canceled.

The University encourages each student to take advantage, as often as practical, of the Spring and Summer terms. Also, you will note that some 500-600 level courses are offered exclusively or alternately during these periods.

Environmental Geotechnical Structures Transportation Water Resources

- * Taught on Demand
- ** Taught By Mechanical Engineering
- *** To Be Determined
- **** Taught By Computer Science

Masters Project (3.0)	698R
Masters Thesis (6.0)	699R
